Dear Jack:

Please express my appreciation for a job well done to Major Kit Johnston and Commander Steve Tinsley who were the JCS participants in the recently completed Future SIGINT Capabilities Study (FSCS), and for their contribution to our understanding of future intelligence needs. The FSCS will provide a valuable guideline for an investment strategy that will help ensure that the United States SIGINT System will remain viable through the year 2000. It will also impact on the production of intelligence information for national decisionmakers and military commanders. Major Johnston and Commander Tinsley should be proud of their contribution to this Herculean effort.

Sincerely,

/s/ William J. Casey
